

# TrainSMART

TrainSMART is available for use by any interested organization, and I-TECH offers fee-based services to accompany the free, open-source software. The services described below are available regardless of if TrainSMART is hosted on a UW server or independent of I-TECH:

Hosting and System Administration Fees			
Service	Description	Non-Profit Organizations	Commercial Entities
Basic	Single URL hosted on the trainingdata.org domain	\$3,000	\$13,000
Medium	2-4 URLs hosted on the trainingdata.org domain, or 1 URL hosted on alternative domain	\$6,000	\$16,000
Complex	5-9 URLs hosted on the trainingdata.org domain, or 2+ URLs hosted on alternative domain	\$12,000	\$22,000
Custom	>10 URLs or other hosting needs not covered above	\$TBD	\$TBD

Hosting with I-TECH is a great deal as it includes significant system service support as noted in the table below.

Services Available	
UW server installation and site setup	<b>Included in hosting fee</b>
Guaranteed 24/7 uptime and enhanced server security	
Ongoing code maintenance and bug fixes	
New functionality and modules are automatically distributed to site	
Eight hours of custom reporting per year
