

Release Notes: TrainSMART Version 2

As enhancements and fixes are made to TrainSMART we will periodically release a new Build. Due to the scope of the changes we have decided that this release will be a new version, thus, we are currently releasing Build 2.0. The enhancements mentioned below will automatically appear in your version of TrainSMART. There is nothing to be done on your part to receive these new modifications although some functionality may need to be enabled by the administrator for your site to begin using the enhancements. This document serves as an introduction and summary of the changes that have been completed.

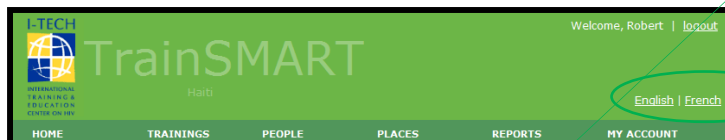

These changes are explained in detail in this document. If you have any questions please contact Robert McLaughlin or your QI Liaison.

Explanation of changes in TrainSMART version 2.0

Title Bar

Localization

TrainSMART (TS) now has the ability to display in multiple languages. There are hyperlinks in the title bar that show the languages that are available. If a project would like multiple languages a localization application will be supplied where all terminology can be translated. Once the translation is complete the file will be uploaded to TS and the administrator will have the ability to turn on/off the languages as well as set the default language within the Edit Country Options section.

Home

Home Page

A table was added that contains future trainings. This table will include only classes that have a start date in the future.

The incomplete trainings table was modified to show only trainings that have a start date in the past and are incomplete

A link to a calendar with all trainings (past and future) that is printable.

Welcome to TrainSMART
Training System Monitoring and Reporting Tool

Data Summary

2008-07-10 to 2009-09-15	Total	Fiscal Year (since 2009-04-01)

Printable Calendar

The printable calendar shows one month at a time. The calendar can be scrolled back or forward by clicking the double blue arrows to view other months in the past or future. The calendar contains the training name and the length of training. In addition, the training is hyperlinked so clicking on the training takes you to the details of that training for more information or additional editing. There is a hyperlink to print whichever month is being viewed.

Trainings

Training Search Page

Two new fields have been added to the Training Search Page to assist in finding trainings and allowing more robust reporting. Training Name and Training Topic can now be used to filter data returned. In addition the user is able to select what fields to show when the data is returned. To have a data column returned check the show box that corresponds with the data you want to appear.

The screenshot shows the 'Training Search' interface. It features a 'Select Criteria' section with several search fields, each with a 'show' checkbox and a 'filter' dropdown menu. The fields include: Department (training location), Training Name, Training location, Training Organizer, Training Level, and PEPFAR topic. Below these are date pickers for 'Start date' (Day 10 / Month 07 / Year 2008) and 'End date' (Day 15 / Month 09 / Year 2009). A 'PREVIEW' button is located at the bottom right. Green circles and arrows highlight the 'show' checkboxes and 'filter' dropdowns for 'Training Name' and 'Training topic'.

View/Edit Training Page

Training Name

The Training Name field is now a drop down box where users select the training and are not allowed to enter whatever text they would like. This will help standardize naming and eliminate duplicate trainings being entered.

The screenshot shows a dropdown menu for the 'Training Name' field. The menu is open, displaying a list of training names. The selected item is 'Atelier de Formation des Formateurs en Andragogie'. Other items include 'Atelier de Formation du Cops Enseignant des Ec', 'CDV/Tests Rapides', 'Comite de Selection pour ARV', 'Complications Neurologique de l'infection a VIH', 'Formation Avancee des Infirmieres en VIH/SIDA', 'Formation Avancee en VIH/SIDA Pr Infirmieres', 'FORMATION DE PRISE EN CHARGE DE L'ENFANT', 'Formation des accompagnateurs', 'Formation en Andragogie', 'Formation en prise en charge communautaire de', 'Formation en VIH pédiatrique', 'Formation Initiale en Ingenierie Biomedicale', 'Formation Planification Familiale', 'Formation Soins et supports Communautaires', 'Formation sur la Prise en Charge Complete des I', 'Formation sur la prise en charge des pathologie', 'Formation sur la prise en charge des pathologie', 'Formation sur la prise en charge psychosociale', 'Formation sur la prise en Charge Therapeutique', 'Formation sur la PTME', 'Formation sur la Violence Sexuelle faite aux fem', 'Formation sur le Microsoft Excel', 'Formation sur le Microsoft Excel 2007', 'Heart failure', 'LIS TRAINING', 'Orphelins et Enfants vulnérables', 'Orphelins et Enfants vulnérables', 'OVC', and 'PCC'. A green circle and arrow highlight the selected item.

Training Topic

Training Topic is now a group of check boxes instead of a drop down menu. This allows the user to select one or multiple topics by clicking the check boxes.

Training topic Check all that apply below [Insert new](#)

Training of Trainers

A new field has been added, Training of Trainers. This is a check box that is either yes or no. The title can be changed in Edit Country Options so this field can be used for collecting other data.

Training of Trainers

Course Objectives

A new field has been added, Course Objectives. This is a text box that allows the user to enter course objectives. The title can be changed in Edit Country Options so this field can be used for collecting other data.

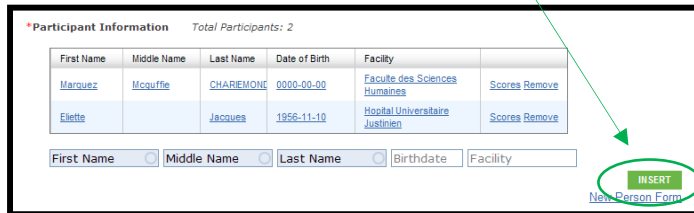

Course Objectives

PEPFAR Category

The title of this field can now be changed in Edit Country Options so this field can be used for collecting other data.

Adding Participants

When adding a participant to the training the user will now be able to select a person from the type a head field and look at their information before adding them to the class. In the past, if a name was typed into one of the name fields and the user clicked on the name the person would automatically be added into the class, now when a name is selected their information appear in the boxes and they are not added to the class until the insert button has been pressed. In addition, Region A has been dropped from the information box.

PREVIEW

Recommended Topics/Classes

This is a very complex new section. This will be delivered with functionality turned off. If a specific project would like to use this function they will require more in-depth training than what can be provided here. This will serve as a basic introduction to the functionality.

To begin the process the administrator will need to set up topics for each qualification. Within Edit Country Options select Recommended Training. A page will appear that will allow the administrator to set recommended topics based on qualifications. As an example: The administrator would select Community Health Worker and then select from 1 to 20 topics that would relate to this qualifications job duties (the topics are pulled from the list of Training Topics).

Recommended Topic
Add/edit Recommended Training Topics

Display recommended trainings per individual

Qualification	Topics	Edit
Community Health Worker	Prise en Charge Communautaire Prise en Charge de l'enfant avec VIH PTME TB/VIH	edit delete
Conseiller	CVT Nutrition des PVV/VIH Prise en Charge Communautaire Prise en Charge de l'enfant avec VIH Prise en charge psychosociale du PVV/VIH PTME undefined	edit delete
Inconnu	Infections Opportunistes Planning Familiale TAR	edit delete
Infirmi	CVT Dossier Medicale Electronic Infections Opportunistes Nutrition des PVV/VIH Prise en Charge Communautaire Prise en Charge de l'enfant avec VIH	edit delete
Laboratoire	CVT LIS Prise en Charge de l'enfant avec VIH	edit delete
M	Dossier Medicale Electronic Infections Opportunistes Prise en Charge de l'enfant avec VIH PTME TAR TB/VIH	edit delete
Pharmacien	Dossier Medicale Electronic TAR	edit delete

Select the recommended topics for this qualification

Qualification:

Topic 1:

Topic 2:

Once the topics are selected and the user select save the qualification and its associated topics appear in the upper portion of the page in a table. These can be deleted or edited as needed. Once this is complete the functionality found on the person's page can now be used.

On the person's page the user will see 4 drop down boxes that will contain the list of topics chosen for their qualification. As an example: if the person is a Community Health Worker the drop downs will include all topics chose for this qualification (all four drop down boxes contain the same values).

Recommended Classes / Topics

--choose--

Nutrition des PVV/VIH

Prise en Charge Communautaire

PTME

ID	Start Date	Name	Topic(s)	Location
115	2009-05-31	test	Infections Opportunistes	Mutuelle Solidaire
118	2009-09-07	test	Infections Opportunistes, Prise en Charge Communautaire, PTME	HUEH
114	2009-09-15	test	Infections Opportunistes	Seminaire MAZNOO

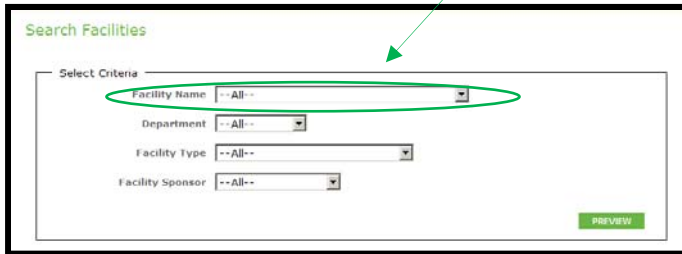

The table below the drop down boxes will display trainings scheduled for the future that have the training topics that match the topics selected for the qualification.

The process from start to finish looks like the following: Qualifications are associated with training topics (manual process), people are associated with 1 - 4 of the training topics associated with their qualifications (manual process), trainings are associated with training topics when entered (manual process), the system will then populate the Recommended Trainings table based on the associated criteria (automatic process).

Places

Search Facilities

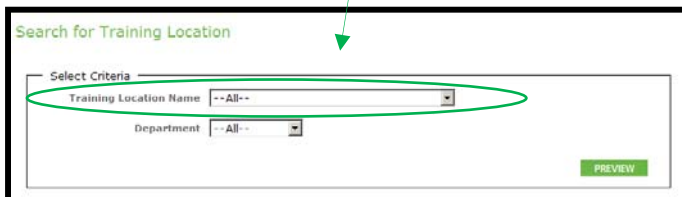

Facility Name has been added to the search page as a drop down field to assist in finding a Facility.

The screenshot shows a web form titled "Search Facilities". Under the heading "Select Criteria", there are four dropdown menus: "Facility Name", "Department", "Facility Type", and "Facility Sponsor". Each dropdown menu currently displays "--All--". A green oval highlights the "Facility Name" dropdown, and a green arrow points to it from above. A green "PREVIEW" button is located at the bottom right of the form.

Search for Training Location

Training Location Name has been added to the search page as a drop down field to assist in finding a Training Location.

The screenshot shows a web form titled "Search for Training Location". Under the heading "Select Criteria", there are two dropdown menus: "Training Location Name" and "Department". Both dropdown menus currently display "--All--". A green oval highlights the "Training Location Name" dropdown, and a green arrow points to it from above. A green "PREVIEW" button is located at the bottom right of the form.

Reports

Training Reports

Trainings by Participant Count

Funding and Training of Trainers were added to the group by and filter by list this will allow more reports to be run with this report.

The screenshot shows the 'Training Reports' interface with the report type set to 'Trainings by Participant Count'. Under the 'Select Criteria' section, there are two columns: 'group' and 'filter'. The 'group' column includes checkboxes for 'Department (training location)', 'Training Name', 'Training location', 'Training Organizer', 'Training topic', 'Training Level', 'PEPFAR topic', 'Funding', and 'Training of Trainers'. The 'filter' column includes dropdown menus for 'Department (training location)', 'Training location', 'Training Organizer', 'Training topic', 'Training Level', 'PEPFAR topic', 'Funding', and 'Training of Trainers'. A green oval highlights the 'Funding' and 'Training of Trainers' rows in the 'group' column. At the bottom, there are date pickers for 'Start date' (Day 10 / Month 07 / Year 2008) and 'End date' (Day 27 / Month 08 / Year 2009), and a 'PREVIEW' button.

Trainings by Name

Funding and Training of Trainers were added to the group by and filter by list this will allow more reports to be run with this report.

The screenshot shows the 'Training Reports' interface with the report type set to 'Trainings by Name'. Under the 'Select Criteria' section, there are two columns: 'show' and 'filter'. The 'show' column includes checkboxes for 'Department (training location)', 'Training Name', 'Training location', 'Training Organizer', 'Training topic', 'Training Level', 'PEPFAR topic', 'Funding', and 'Training of Trainers'. The 'filter' column includes dropdown menus for 'Department (training location)', 'Training location', 'Training Organizer', 'Training topic', 'Training Level', 'PEPFAR topic', 'Funding', and 'Training of Trainers'. A green oval highlights the 'Funding' and 'Training of Trainers' rows in the 'show' column. At the bottom, there are date pickers for 'Start date' (Day 10 / Month 07 / Year 2008) and 'End date' (Day 27 / Month 08 / Year 2009), and a 'PREVIEW' button.

Participant Reports

Unique Participants by PEPFAR

Training Organizer was added to this report with the ability to select one or many

The screenshot shows the 'Participant Reports' interface. At the top, it says 'Participant Reports' and 'Select participant report Unique Participants by PEPFAR'. Below this is a 'Select Criteria' section. The 'Department (facility location)' dropdown is set to 'All'. The 'Training Organizer' section is circled in green and contains a list of organizations with checkboxes: Departement sanitaire du Sud, GHEKIO, I-TECH, INHSAC, NPFS, Plan National/MSPP, undefined, University of Miami/Hopital Universitaire Justinien, unknown, and Zanmi Lasante/ PIH. Below the list are date pickers for 'Start date' (Day 10 / Month 07 / Year 2008) and 'End date' (Day 27 / Month 08 / Year 2009). A note at the bottom states 'Unique by pepfar category and training organization not unique overall.' and a 'PREVIEW' button is at the bottom right.

Unique Participants by Training Level

Training Organizer was added to this report with the ability to select one or many

The screenshot shows the 'Participant Reports' interface. At the top, it says 'Participant Reports' and 'Select participant report Unique Participants by Training Level'. Below this is a 'Select Criteria' section. The 'Department (facility location)' dropdown is set to '--All--'. The 'Training Organizer' section is circled in green and contains a list of organizations with checkboxes: Departement sanitaire du Sud, GHEKIO, I-TECH, INHSAC, NPFS, Plan National/MSPP, undefined, University of Miami/Hopital Universitaire Justinien, unknown, and Zanmi Lasante/ PIH. Below the list are date pickers for 'Start date' (Day 10 / Month 07 / Year 2008) and 'End date' (Day 27 / Month 08 / Year 2009). A note at the bottom states 'Unique training by level and training organization, not unique overall.' and a 'PREVIEW' button is at the bottom right.

Unique Participants by Qualification

Training Organizer was added to this report with the ability to select one or many

The screenshot shows the 'Participant Reports' interface. At the top, there is a dropdown menu for 'Select participant report' set to 'Unique Participants by Qualification'. Below this is a 'Select Criteria' section. A green oval highlights the 'Department (facility for a site)' dropdown menu, which is currently set to '--All--'. Below the dropdown is a list of training organizers with checkboxes: Departement sanitaire du Sud, GHEKIO, I-TECH, INHSAC, NPFS, Plan National/MSPP, undefined, University of Miami/Hopital Universitaire Justinien, unknown, and Zanmi Lasante/ PIH. Below the list are date pickers for 'Start date' (Day 10 / Month 07 / Year 2008) and 'End date' (Day 27 / Month 08 / Year 2009). At the bottom, there is a note: 'Unique by training organization not unique overall.' and a green 'PREVIEW' button.

Participants Trained

This is a new report, replacing Participants by Training. The group and filter by fields include, Regions A, Region B, Facility, Primary Qualification, Secondary Qualification, Training Organizer, Training Topic, PEPFAR Category, Funding, Gender, Is Active, Training of Trainers and a check box to return unique participants only. In addition, Qualification has been divided into two fields the primary or secondary qualifications can be returned or both. This will allow users to run a report for all physicians not just a secondary physician

The screenshot shows the 'Participant Reports' interface for 'Participants Trained'. At the top, there is a dropdown menu for 'Select participant report' set to 'Participants Trained'. Below this is a 'Select Criteria' section. A green oval highlights the 'Qualification (primary)' and 'Qualification (secondary)' dropdown menus, both set to '--All--'. Below these are checkboxes for 'Department (facility)', 'Facility', 'Training Organizer', 'Training topic', 'PEPFAR category', 'Funding', 'Gender', 'Is Active', and 'Training of Trainers'. The 'Training Organizer' list is the same as in the previous screenshot. At the bottom, there is a checkbox labeled 'Return Unique Participants' which is currently unchecked. Below the checkbox are date pickers for 'Start date' (Day 10 / Month 07 / Year 2008).

Participants by Facility

Training Organizer was added to this report with the ability to select one or many. In addition Funding and Training of Trainers were also added.

The image shows a web-based filter criteria form for a report titled "Participants by Facility". The form is divided into two columns: "show" and "filter".

show	filter
